docuProof.io — Proof you can point to.

Proof you can point to.

This certificate confirms your document was cryptographically hashed and queued for permanent timestamping on Bitcoin.

docuProof

Proof Summary

This proof represents a cryptographic commitment to your original file. docuProof submits proofs to OpenTimestamps for batching and anchoring into the Bitcoin blockchain. Once anchored, anyone can independently verify this timestamp without relying on docuProof.

Proof ID
cs_test_emailOnce_002
Unique identifier for this proof within docuProof.

Quick Verify ID
664cb3fa654d
Short form of the identifier for manual reference or logging.

Created (UTC)
2025-11-23 15:33:50.238Z
Time this certificate was generated (anchoring occurs after batching).

File Name
AnchorTest.pdf
Human-readable name of the original document associated with this proof.

Display Name
Anchor Test
Descriptive title for this proof, provided by the user.

Public Verify URL
https://docuproof.io/.netlify/functions/verify_page?id=cs_test_emailOnce_002
Shareable link to check live status and Bitcoin anchoring for this proof.
